YOUR PATH TO BEAUTIFUL SKIN

ACNE SPOT TREATMENT

Salicylic Clearing Formula

Quickly dry up acne breakouts by reducing redness and inflammation! This therapeutic salicylic clearing formula combines camphor, salicylic acid and witch hazel, noticeably speeding the healing of acne breakouts.

Key Ingredients:

Salicylic Acid: Derived from the bark of birch trees, this beta-hydroxy acid is capable of penetrating the skin's surface and getting into the pores to dissolve dead skin cells that cause acne breakouts. With powerful anti-inflammatory effects, it also helps decrease bacteria on skin that can encourage acne breakouts.

Camphor: This botanical skin freshener imparts an immediate cooling, soothing sensation and instantly makes breakouts feel less sore.

Witch Hazel (Hamamelis Virginia Extract): This botanical antioxidant has a gentle drying, anesthetic effect, making acne breakouts feel less sore.

Benefits of Acne Spot Treatment:

- Encourages healing of post-acne marks
- Reduces tenderness associated with acne breakouts.
- Great proactive way to clear acne breakouts.

How to Use:

If possible, apply to cleansed skin directly on acne pimple. Use 2-3 times daily at first sign of breakout for best results.
